From Rhodesia to Zimbabwe

Rhodesia's green
and beautiful land
it's rich and
 fertile soil
has given way
to Mugabe's
 Zimbabwe
of blood
 soaked soil.

Britain and America
why do you
 fail to act?

From the breadbasket
 of Africa
to the basket case
 of Africa
from self sufficiency
to aid dependency
 just add
one Mugabe
 why does
the West allow
 this situation
 to exist?
 No oil?
 Just blood
in rich and fertile soil.
